PROJECTS

- PIXELSPOT** : PixelSpot is your go-to platform for photo management, sharing, and community interaction. It provides secure photo backup, intuitive organization, and selective sharing. Plus, users can engage with the community by liking and disliking photos.
- Temperature Controlled Food Delivery Box** : This project focuses on creating bike-mounted containers designed for the efficient delivery of prepared food, with a specific emphasis on incorporating heated compartments to keep the food at the desired temperature. The primary goal is to ensure that food quality is maintained throughout the delivery process.
